BEST PRACTICE

Perfect planning: made-to-measure shed

The Tor & More configurator offers impressive performance, with absolutely short loading times and maximum user-friendliness. It significantly reduces the amount of consulting required and **creates quotations and individual dimensional drawings with just one click.**

Read Case Study

Did you already know?

According to a study by Salesforce, the implementation of configurators or CPQ systems can reduce **the time it takes to create quotations by up to 80%.**

Create offers with just one click

With a single click in the configurator, you can immediately **generate customized offers**. This is an enormous increase in efficiency for sales. See for yourself in the video.
